

Sweeper Attachments

Attachments for Sweeper - AUSA forklifts provide supreme functionality and are popular for their ergonomic, highly modular and compact design. They offer versatility and stability when handling loads on the job location and are considered really dependable. With respect to other forklifts, AUSA units have a big diameter of their wheels that helps to guarantee favorable weight suspension in the cab and in the forks. This allows the forklift to produce an optimum working productivity over uneven and variable surfaces.

The company headquarters for AUSA are located in Manresa, Spain which is in the province of Barcelona's interior. The main production facility is likewise at this site and holds a total surface area of about 64,000 square meters. AUSA has subsidiaries situated in the France, Florida, China, UK, Germany and Madrid. The business exports more than sixty percent of the machines they manufacturer and markets its products through 225 distributors all around 70 nations.

Each of the AUSA forklifts is accessible equipped along with an automatic hydrostatic transmission. This offers precision of movement and automatic braking in deceleration of the lift truck which gives this equipment an additional level of productivity and safety. The hydrostatic transmission enables the one operating it to rapidly adapt to the lift truck which is significant when the load is really not easy to handle and when terrain circumstances are complicated.

The operator cab on the AUSA forklift is the only one on the market that is frontal-folded to permit efficient and easy access for periodical maintenance. Highly modular, these cabins are offered open, semi-closed or soundproof closed. For northern weather conditions heated cabins are an option, as well, air conditioning is integrated in a back post of the cabin. Different tire widths, grips and attachments are also obtainable so as to fit any of the forklift units.

The world's best in compact equipment, AUSA likewise specializes in urban sweepers, site dumpers and tool carrier vehicles. With sales and service all over seventy countries within 5 continents and over 200 sales depots worldwide, AUSA is an industry leader.
